

Tender Announcement

<u>PROJECT:</u>	Intelligent Transportation Systems in Jordan
<u>TITLE:</u>	<i>“ Consultancy Services to provide for Technical Studies, Designs and Tender Documents to Implement Intelligent Transportation Systems (ITS) for the Public Transportation Sector ”</i>
<u>PROJECT ID/ CONTRACT NO:</u>	6/2016

1. The Land Transport Regulatory Commission (LTRC) is the regulatory body in Jordan to ensure optimal efficiency of the public transport sector through active competition and regulation, taking into account strategic constraints and social considerations.
2. In support of LTRC’s goals and objectives, and in order to provide bus passengers with the best service, the Ministry of Transport of Jordan (MoT) and the LTRC itself together with GAM, Greater Amman Municipality are engaged in a National Project to promote the implementation of a state-of-the-art public transport fleet monitoring and ticketing system throughout the country.
3. In order to successfully design and implement the foreseen system, the Ministry of Transport of Jordan and the Land Transport Regulatory Commission along with GAM intend to hire a highly skilled consultancy company to provide for *“Consultancy Services for the Elaboration of Technical Studies, Designs and Tender Documents for the Acquisition and Implementation of a New Public Transport Fleet Monitoring and Automatic Fare Collection System in Jordan”*.
4. The “Consultancy Services” to be provided by the selected consultancy company will cover the following aspects:

PART I

- i. Analysis of the technological current situation and legal framework regarding the public transportation sector in Jordan.
- ii. Detailed analysis of the gaps and requirements the public transport system in Jordan has to meet and overcome in order to become competitive and conveniently face the current and future transport needs of a modernized Jordanian society.
- iii. Analysis of the state-of-the-art of the Fleet Monitoring Systems and Automatic Fare Collection Systems being implemented in the World and future trends.
- iv. Fleet Monitoring Solution Definition for Jordan.
- v. Automatic Fare Collection System Solution Definition for Jordan, along with Business, Operational and Legal Model Design.
- vi. Development of the Technical and Functional Specifications for both systems.
- vii. Preparation of Cost Estimates and Elaboration of the Financial Model.
- viii. Elaboration of a feasible Implementation Plan for the Project
- ix. Assistance to the LTRC in the process of Stakeholders’ Engagement and Management and Monitoring of the Project.
- x. Preparation of all necessary Technical and Legal Documentation to issue an Acquisition and Implementation Tender for the Designed Technology.

PART II

- xi. Assistance to the LTRC with all Tender Procedures and Contract Negotiation, including support to the bidders’ evaluation.

PART III

- xii. Assistance to the LTRC with Implementation Supervision during the Start-up phase of the Project.

5. Part I and II will be part of the assignment, while part III would be object of a separate contract.
6. The LTRC now invite eligible consulting firms ("Consultants") to indicate their interest participate in the tender to provide Consultancy Services.
7. Consultants may associate with other firms in the form of a joint venture or a sub-consultancy to enhance their qualifications.
8. The final winning Consultant will be selected in accordance with a Quality Cost Based Selection (QCBS) method following common International Competitive Bidding Procedures set out in the detailed ToR.
9. Interested Consultants can download the tender documents free of charge from the (LTRC) web site listed below on Sunday17, July2016.
10. Intent to participate in this tender must be confirmed by e-mail to Tender@ltrc.gov.jo upon downloading the RFB documents.
